Approval of the Unaudited Interim Condensed Financial Statements

The unaudited interim condensed financial statements of the Company as at June 30, 2017 and for the six-month periods ended June 30, 2017 and 2016 were approved and authorized by the Board of Directors (BOD) on August 2, 2017.

2. Basis of Preparation, Statement of Compliance and Summary of Significant Accounting Policies

Basis of Preparation

The unaudited interim condensed financial statements of the Company have been prepared on a historical cost basis and are presented in Philippine Peso (₱), which is the Company's functional currency. Amounts are rounded off to the nearest Philippine Peso, except where otherwise indicated.

The accompanying unaudited interim condensed financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Company's annual financial statements as at December 31, 2016.

Statement of Compliance

The accompanying unaudited interim condensed financial statements as of June 30, 2017 and for the six-month periods ended June 30, 2017 and 2016 have been prepared in accordance with Philippine Accounting Standards (PAS) 34, *Interim Financial Reporting*.

Changes in Accounting Policies

The accounting policies adopted by the Company are consistent with those of the previous financial years except for the following amendments to existing PFRS that became effective beginning January 1, 2017 and which have no impact on the Company's financial statements.

Effective beginning on or after January 1, 2017

- *Amendment to PFRS 12, Clarification of the Scope of the Standard (Part of Annual Improvements to PFRSs 2014 - 2016 Cycle)*

The amendments clarify that the disclosure requirements in PFRS 12, other than those relating to summarized financial information, apply to an entity's interest in a subsidiary, a joint venture or an associate (or a portion of its interest in a joint venture or an associate) that is classified (or included in a disposal Company that is classified) as held for sale.

The amendments do not have any impact on the Company's financial position and results of operation.

- *Amendments to PAS 7, Statement of Cash Flows, Disclosure Initiative*

The amendments to PAS 7 require an entity to provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes (such as foreign exchange gains or losses). On initial application of the amendments, entities are not required to provide comparative information for preceding periods. Early application of the amendments is permitted.

- *Amendments to PAS 12, Income Taxes, Recognition of Deferred Tax Assets for Unrealized Losses*

The amendments clarify that an entity needs to consider whether tax law restricts the sources of taxable profits against which it may make deductions on the reversal of that deductible temporary difference. Furthermore, the amendments provide guidance on how an entity should determine future taxable profits and explain the circumstances in which taxable profit may include the recovery of some assets for more than their carrying amount.

Entities are required to apply the amendments retrospectively. However, on initial application of the amendments, the change in the opening equity of the earliest comparative period may be recognized in opening retained earnings (or in another component of equity, as appropriate), without allocating the change between opening retained earnings and other components of equity. Entities applying this relief must disclose that fact. Early application of the amendments is permitted.

These amendments are not expected to have any impact on the Company.

The fair value of the Company's financial instruments approximates the carrying amount as of June 30, 2017 and December 31, 2016.

Fair Value Hierarchy

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:
